Experience

Product Designer, Filament (Contract)

Jul 2026 – Present · Remote, based in OR
Filament is a seed-stage startup building an instant messaging app for people and agents. Embedded generalist covering user research, competitive analysis, wireframing, and QA. Find bugs and ship fixes, from ticket to production.

Senior Product Designer, DataGrail

Dec 2024 – Jan 2026 · Remote, based in OR
DataGrail is a B2B data privacy and compliance platform. Built a way for users to manage data policies on their own. Led design on privacy center and consent banner features to automate data privacy compliance for enterprise customers.

Senior Product Designer, Postscript

Feb 2023 – Aug 2024 · Remote, based in OR
Postscript is a marketing platform for Shopify stores. Designed financial transparency features, including a pre-SMS-send cost calculator and self-serve invoices, to reduce billing surprises.

Product Design Lead, Good Dog

Jun – Nov 2022 · Remote, based in OR
Good Dog is a two-sided marketplace connecting prospective pet parents with ethical breeders. Reduced friction across the end-to-end buying flow on desktop, mobile web, and native app.

Senior Product Designer, Gladly

Apr 2021 – May 2022 · Remote, based in OR
Gladly is an omnichannel customer service platform for retail brands. Built self-service onboarding tools that reduced implementation costs by \$125K+/year.

Senior Product Designer, Chartbeat

Jun 2018 – Apr 2021 · New York, NY
Chartbeat is an analytics platform for media companies such as NYT, CNN, and BBC. Overhauled user management workflows to meet enterprise requirements. Evolved data-driven email newsletters to surface actionable audience insights.

Lead UX Researcher and Designer, Mastercard

Mar 2016 – Jun 2018 · New York, NY
Managed 100+ end-to-end qualitative research sessions to shape product strategy for B2B2C digital payment solutions. Redesigned the Mastercard Developers portal and Masterpass web experience in collaboration with product and engineering.
